OBJECTIVE: To obtain and keep employment in President Obama's stagnated economy.

UNEMPLOYMENT BACKGROUND:

ObamaCare kills my job

March 2012-present

- I started working for a Medical Device company which was a great job in a growing field. Thanks to the Medical Device Tax in ObamaCare, the company was forced to close its doors and I was once again hitting the unemployment line.

Keystone jobs blocked by environmental extremists

January 2012

- I was excited over our country's progress towards being energy independent from Middle Eastern oil and the notion of job creation with the Keystone Pipeline. Unfortunately, Washington Democrats and President Obama did not share my enthusiasm and the project was blocked.

Obama donors win; workers lose

September 2011

- I moved to California to work for an energy company named Solyndra that Washington Democrats loved, but by the time I got there they were bankrupt and all the employees were laid off.

Energy jobs for China

August 2011

- Finally, I got a break and decided to move into the Wind Energy field which was promised by President Obama to boom after his stimulus program. But I found out I had to move to China because Obama's stimulus sent our American wind jobs there.

The stimulus that never happened

January 2009 – 2010

- I updated my resume to apply for one of the 600,000 jobs that were promised in President Obama's stimulus program. But the economy continued to get worse and those jobs never appeared.

References: These people know a lot about destroying my job opportunities.

January 4, 2013

Reps. Nancy Pelosi and Steve Israel
c/o Ms. Kalindi Winfield – Resume Drop Coordinator
Democratic Congressional Campaign Committee
430 S. Capitol St. SE
Washington, DC 20003

Dear Representatives Pelosi, Israel and the DCCC:

I am writing to you because I have recently become aware of your resume drop for the Democratic Congressional Campaign Committee (DCCC). I am currently unemployed due to the poor economy and crushing burden of the Obama Administration and would like an opportunity to gain employment through your organization. I am a motivated, self-starter with various experiences due to the fact that I have had to come up with creative ways to survive in this dismal economy created by Washington Democrats.

Finding employment at the DCCC is of great interest to me because I have experienced the failing policies of Washington Democrats first hand. While your organization and its politicians have done everything possible to crush the middle class folks like myself, I am very proud of the ingenuity I have displayed and would love to share those skills with your organization.

Frankly, I know what it is like to try and start a small business yet fail due to the exuberant costs of ObamaCare. I know what it is like to finally find hope in our economy and our ability to become energy independent yet watch President Obama and Washington Democrats flush the idea of the Keystone Pipeline and the idea of new jobs down the toilet. I also know the heartache of watching Washington Democrats crush any chance of my children having a bright future by increasing government spending without care.

Your organization has focused on Nancy Pelosi's vision for our country and I believe that since I have lived under those dangerous policies that have kept me unemployed and the cost of living through the roof, I am best fit to join your organization to right the wrongs of this failed thinking. As you can see from my resume, which is attached, I have had many years experience finding creative ways to pay my bills and put food on the table for my family all while watching the Democrats in Washington increase my taxes and spend more of my children's future. I am creative and can think on my feet. Any mother living in this economy has had to learn these traits.

I would appreciate an opportunity to interview for your "resume drop" and speak with you further about my qualifications to join your team. After experiencing 40 weeks of unemployment under the current administration I understand how precious job opportunities are. I will follow up with a phone call to ensure you have received my resume and my interest in your organization. I would like to thank you in advance for your consideration and hope to speak with you soon.

Sincerely,
The Real Julia
